EDUCATION

University of Wisconsin - Madison

Madison, WI

B.S. Computer Science / B.S. Data Science, Certificate (Minor): Game Design

May 2027

Related Courses: Calculus and Analytic Geometry I, Programming I (Java), Calculus and Analytic Geometry II, Programming II (Java OOP)

EXPERIENCES

Headstarter AI

Remote

Software Engineering Fellow

July 2024 - September 2024

- Built 5+ AI apps and APIs using NextJS, OpenAI, StripeAPI with 98% accuracy as seen by 1000 users
- Developed projects from design to deployment leading 4+ engineering fellows using MVC design patterns
- Coached by Amazon, Bloomberg, and Capital One engineers on Agile, CI/CD, Git and microservice patterns

Center of High Throughput Computing (CHTC)

Madison, WI

Research Computing Facilitator Assistant

July 2024 - Present

- Streamlined data management for research computing by automating data collection and report generation
- Generated insightful reports and tables from key metrics, facilitating analysis of high through computing usage
- Refactored existing data collection and report generation processes, optimizing workflow efficiency and reducing manual effort for researchers using Python and Unix commands

NASA L'SPACE Mission Concept Academy

Remote

Computer Hardware Engineer

May 2024 - August 2024

- Spearheaded the design, selection, and integration of the Command and Data Handling (CDH) subsystem of a conceptual lunar rover mission in a student-led team of 10.
- Delivered technical guidance and support to the subteams as the primary computer hardware engineer, ensuring hardware compatibility and adherence to project constraints
- Conducted trade studies pertaining to telecommunications and software architecture subassemblies, lower-level requirements, and software architecture flowchart for the CDH subsystem.

Datamatch

Madison, WI

Chief Code Executive & Web Developer

December 2023 - Present

- Significantly boosted user engagement through a comprehensive website redesign and feature implementation, which attracted over 32,500 annual visitors.
- Collaborated in cross-functional communication between divergent college web teams to seamlessly integrate frontend components using Figma
- United React, Javascript, HTML, and CSS to develop interactive user interfaces (UI) and improve user experience (UX)

SKILLS

Programming Languages: Java, Python, JavaScript, HTML, CSS, Bash

Libraries/Tools: React, Node.js, Express.js, MongoDB, SQL (MySQL), Axios, Tableau (Developer Skill Badge), Matplotlib, Tailwind CSS, MUI, Beautiful Soup, Git, GitHub, Figma, Jira, Chrome Extension Development API, Slack, Visual Studio Code, Pycharm, IntelliJ, Eclipse, Microsoft Excel/Word (Certified)

Languages: English (native), Gujarati (native), Hindi (elementary), Spanish (elementary)
